Midas Fund invests in securities of companies involved in the business of mining, processing, fabricating, distributing, or otherwise dealing in natural resources and precious metals. Midas Fund is subject to risks including, but not limited to, those associated with market fluctuations, foreign investment, non-diversification, concentration, investments in gold, silver, platinum, and other precious metals, natural resource companies, depletion and exploration risk, and in-kind redemptions.

Investment products, including shares of mutual funds and closed end funds, are not federally or FDIC insured, are not deposits or obligations of, or guaranteed by, any financial institution and involve investment risk, including possible loss of principal and fluctuation in value. Consult with your tax advisor or attorney regarding specific tax issues.

One of Midas' guiding principles is that we will communicate with our shareholders and prospective investors as candidly as possible because we believe shareholders and prospective investors benefit from understanding our investment philosophy and approach. Our views and opinions regarding the prospects of our portfolio holdings, the Midas Funds, and the economy are "forward looking statements" as defined under the U.S. federal securities laws, which may or may not be accurate and may be materially different over future periods. Generally, the words "believe," "expect," "intend," "estimate," "anticipate," "project," "will," "may," "should," "plan," or the negative of such terms and similar expressions identify forward looking statements, which generally are not historical in nature. Forward looking statements are subject to certain risks and uncertainties that could cause actual results to materially differ from a Fund's historical experience and its current expectations or projections indicated in any forward looking statements. These risks include, but are not limited to, equity securities risk, corporate bonds risk, credit risk, interest rate risk, leverage and borrowing risk, additional risks of certain securities in which the Midas Funds invest, management risk, and other risks discussed in the Midas Funds' filings with the Securities and Exchange Commission. We disclaim any obligation to update or alter any forward looking statements, whether as a result of new information, future events, or otherwise. Thus, you should not place undue reliance on forward looking statements, which speak only as of the date they are made.
